## FOREWORD

Due to the ever increasing labor shortage, I am not listing many bulblets this year. I am doing this to hasten the filling of orders for bulbs. All orders will be filled as promptly as possible. Please be patient if I am late with your order. All orders will be filled in the order in which they are received. I will do the very best I can with what help I have to do with.

Thank you for your past favors and hope I can serve you farther.

Terms: Single bulbs or bulblets at the ten rate, but no single item for less than five cents. 25 bulbs or bulblets at the 100 rate; 250 at the 1,000 rate. Pints and half pints in generous measure at the quart rates. Prepaid spring delivery on all orders over \$2.00 — except for F. O. B. prices.

Cash, please. With the following extras of your selection: On orders up to \$5.00 you may select 10% in extra bulbs; \$5.00 to \$10.00, 15% in extra bulbs; \$10.00 to \$20.00, 20% in extra bulbs. Over \$20.00, 30% in extras. If you purchase large bulbs only in lots of 25 or more and will call for them or pay express charges, you may take a cash discount of one-third instead of extra bulbs. The above extras and discounts do not apply to F. O. B. quotations. Gratis bulbs for the names of your glad-loving friends.

Stock of bulbs for 1945 guarantee the same bright, clean, healthy stock as usual.

## Comments

Many varieties listed last year have been dropped because of the shortage of stock. Many were sold out completely last year, and not enough stock was grown to replace them. Have had one of the driest seasons on record. Bulblets did not germinate and what did were burnt up. Am unable to quote wholesale prices on small sizes this year because of this. However the larger sizes are very nice.

All bulbs offered are the same high quality bulbs usually offered.

(L) large, (M) medium, (S) small sizes are those common to the trade. Large bulbs can be depended upon for the finest spikes. Medium size bulbs will prove very satisfactory. Small bulbs may do well.

Gladioli are very easy to grow. Following are a few of the principal rules to follow:

Select a place in the open garden where other tall growing plants will not shade them. Glads like and need full sunshine. Mix with the soil, any good grade of commercial fertilizer or well rotted compost or manure. Select good healthy bulbs. Place them in a trench at least five inches deep and about three inches apart in a straight or staggered row. Cover at once. It is better to plant deeper than too shallow. One or two light applications of fertilizer during the growing season, before buds appear, will help insure good spikes.

Join the Connecticut Gladiolus Society if you live nearby. You will be warmly welcomed by its members. Send the dues of \$2.00 to me and I will be glad to forward them to the Secretary.

### SATISFACTION GUARANTEED

Successful control measures include the following:

(1) Treat the bulbs with Cyanogas-G or other fumigant upon cleaning the bulbs in the fall. Small quantities of bulbs may be put in paper bags or shoe boxes and sprinkled with Naphthalene flakes—1 ounce per 100 bulbs. Let the flakes evaporate. (2) Store in a cool, dry place and keep at a temperature of 40 degrees. Do not let the bulbs freeze. (3) Treat or soak in solution of bichloride of mercury (corrosive sublimate) before planting. Husk the bulbs previously, if possible. Soak for two hours in a solution of 1.1000, one tablet to one pint of water. Use stone crocks, glass jars, or wooden tubs—not a metal container. Large numbers of bulbs may be tied in sacks and kneaded on the floor in lieu of husking. Thorough soaking will destroy all thrips and their eggs. (4) Spray every week or ten days after the plants are six inches high. Do not wait until the buds appear. It is too late then. Effective spraying will control those thrips that have survived or that may appear from nearby infestations.

Tartar Emetic, used as follows, has proven very satisfactory in controlling thrips. Tartar Emetic 4½ teaspoonsful, sugar 1 2/3 cups, water 3 gals. Apply late in the afternoon or early evening.
